Process

- 1 Field players in each team listed alphabetically and allocated numbers in numerical order
- 2 GKs in each team listed alphabetically and allocated numbers in numerical order
- 3 In 2022 the green numbers would be allocated first to players with shadow players "taking over" the number when called into the team
- 4 In 2023 the blue numbers would be used initially for new players into the team i.e. there are 8/9 numbers available; history indicates this is more than enough
- 5 In 2024 the remaining blue numbers would be used and then the green numbers of players who have "graduated" to an older age group or have not represented for two years
6. Where there is a clash of numbers, the player moving into a team must purchase a new shirt
